## THE RIVER TELLS A STORY

Located on the left bank of Negro river, Manaus has its origin (1669) in a small village formed around the Fort of São José da Barra do Rio Negro, created to save the region of possible Dutch and Spanish attacks. Soon the small number of inhabitants increased resulting in a large village called Lugar da Barra. In 1757, the small town was renamed Captaincy of São José do Rio Negro and in 1783, passed the danger of enemy attacks, the Forte da Barra has been disabled. In 1833, Brazilian

provinces were restructured, thus the Lugar da Barra was promoted to Province, changing its name to Village Manaós, becoming the capital of the Upper Rio Negro District.

In 1848, when the Manáos village became recognized as the city of Barra do Rio Negro and the Amazon state (1850) is proclaimed as a province, the region starts receiving researchers, scientists and chroniclers interested in learning about and reporting its natural cultural diversity.

On the second half of the nineteenth century, the city of Barra do Rio Negro goes through varied urban transformations, especially with the arrival (1852) of President João Baptista de Figueiredo Tenreiro Aranha definitely installed in the Amazon province. Finally in 1856, through Law No. 68 of September 4, the Barra do Rio Negro came to be called city of Manaus, a place that would still be known as "Paris of the Tropics".

Be prepared to admire the most beautiful landscapes on the planet and be surprised by its greatest treasure which is the people of Manaus. ## CULTURE

The Amazon culture and the city of Manaus is the legacy of a rich cultural miscegenation (indigenous, white, black and Northeast), hence the Amazonian people reflect their culture manifestations as distinct from each other as the ritual of New Girl, held in the upper region River Solimões, the Amazon Jazz, Films and Opera Festivals presented in sumptuous Amazonas Theater in Manaus, and a street carnival that happens in virtually all cities of Brazil.

## TRADITIONAL FESTIVALS

Almost all municipalities in the state (66) hold theme parties, as an example we cite the "Feast of Cupuaçu" in the municipality of Presidente Figueiredo; the Music Festival of the municipality of Itacoatiara; the Feast of Guarana in the municipality of Maués; the Festival of Bois Bumbás (Caprichoso and Garantido) of Parintins and so on. Other options include the Amazon Opera Festival, the Carnaboi, the Manaus Carnival and the Boi Manaus (held to commemorate the anniversary of the city, which takes place on October 24th).

In addition, you can watch and/or participate in June Festivals (celebration that takes place in June in reference mainly to the Saints of the Catholic Church). During this period you will find in various parts of the city typical foods stalls: corn cakes, couscous, corn pudding, rotten cake, hominy, Chikki, pastel junino, among other delights.

## CULINÁRIA

The manauara cooking is delicious! Our rivers are home to more than two thousand species of fish, thus the Amazonian meals give value to the fish as the principal food. The principal fishes consumed, mainly at the lunch, are tambaqui, tucunaré, pirarucu, jaraqui, pacu and matrinxã. Served fried, roasted or stewed and combined with white or yellow manioc flour, being as farofa or pirão\*, this is a healthy and complete

food, full of necessary nutrients to the human body.

The breakfast is full of delicious food. You can try the famous x-caboquinho, made with French bread, stuffed with cheese curd and slices of tucumã (tucumã is the fruit of an Amazonian palm. Its pulp is rich in Vitamin A, B and has a high content of Vitamin C, besides of it, has high quantity of energy value 247 calories per 100 grams). The

same combination is consumed with tapioca, food made from the manioc starch. In addition, you can try the corn cake, French bread stuffed as you wish, tapiquinha, peanut brittle and others.

More foods are tacacá, prepared with tucupi (broth extracted from manioc), tapioca gum, dry shrimp and jambu, pirarucu de casaca, fried banana (unripe or ripe); pato no tucupi (Brazilian duck tucupi); açaí with tapioca, among others.

# LIVING IN MANAUS

## COST OF LIVING

The city is wonderfully surrounded by rivers and forests, however, the delivery of food products, mainly from the south, by land and/or airways ultimately has increased the cost of living in the city. Thus it is better to buy fruits and/or vegetables at street or market fairs. The Manaus Moderna fair offers much lower prices than supermarkets. Anyway, in a short time you will be able to identify establishments with more popular prices.

## FREE INTERNET

The Government offers free internet access points in various locations of the city of Manaus, but the most accessible place is in Largo São Sebastião square, in the city center. You can also find free wifi at Bemol stores, located in various parts of the city and in malls.

## TRANSPORT

Public transport in Manaus is administered by the Municipal Superintendence of Urban Transport (SMTU), but what you should know is that throughout the city the fee costs R\$3,00. With a student card you pay only R\$ 1,50 and the city has 5 integration terminals (in these terminals you don't need to pay extra ticket) covering all zones of the city. The terminals are:

<b>T1</b>	Terminal 1	Av. Constantino Nery, s/n, Centro, trânsito de 66 linhas.
<b>T2</b>	Terminal 2	Rua Manicoré, s/n – Cachoeirinha, trânsito de 49 linhas.
<b>T3</b>	Terminal 3	Av. Noel Nutels, s/n – Cidade Nova I, trânsito de 43 linhas.
<b>T4</b>	Terminal 4	Av. Camapuã, s/n – Jorge Teixeira, trânsito de 19 linhas.
<b>T5</b>	Terminal 5	Av. Autaz Mirim, s/n – São José, trânsito de 23 linhas.

 R\$ 3,00  
R\$ 1,50 to students with student card

 4am to 12pm everyday

 Visit for more informations:  
<http://smtu.manaus.am.gov.br/>

 If you need to get around by taxi you should choose one of the taxi companies operating in the city. At the end of the Guide we provide a list of these companies.

## ZONES AND NEIGHBORHOODS

Manaus is divided into North, South, South-Central, East, West, Midwest and Rural Zones. The East Zone is the most populous and the Central South Region has the highest income per capita. You will probably settle in neighborhoods that offer you faster access to the University. So, your options should be the neighborhoods of Cachoeirinha, Raiz, Japiim, Coroado and Aleixo.

## METROPOLITAN ZONE OF MANAUS

The metropolitan region of Manaus was created in 2007 and is formed by the union of the cities of Manaus, Careiro da Várzea, Iranduba, Itacoatiara, Manacapuru, Novo Airão, Presidente Figueiredo and Rio Preto da Eva. In order to approach the municipalities of Iranduba, Manacapuru and Novo Airão to the Amazon capital the Rio Negro bridge was inaugurated on October 24, 2011.

## A PLACE TO LIVE

Certainly your main concern to get to the city is to find an appropriate house or apartment to stay in, but with a little patience you will be able to find something that fits your budget.

Rent prices in Manaus vary, mostly according to location, overall prices are around R\$ 700,00, with the possibility of negotiation. The value of a kitnet (apartment with living room, bedroom and bathroom similar to a bachelor) for example, in Coroado neighborhood is about R\$ 500,00, under the same conditions in the district of Petropolis (20 minutes from Campus) you can find one for R\$ 320,00.

Our tip is that you look for the Regional Council of Realtors (Conselho Regional de Corretores de Imóveis) in that case you have to pay the broker's commission. The International and Inter-institutional Relations Advisory - ARII (Assessoria de Relações Internacionais e Interinstitucionais) – ARII can help you in that quest.

## HOTELS

If you need to stay for a few days in a hotel, Manaus has a large network.

## MEALS

During the week you do not need to worry about your meals, as the University has the University Restaurant (RU), with subsidized price to students. At lunch or dinner you will pay a total of R\$2.70 per day. The snack bars installed in the Campus offer coffee, snacks and lunches for much lower prices than market prices.

On weekends and holidays you will have at your disposal a wide network of restaurants (from the most exquisite to the simplest ones) serving everything from coffee to dinner. At the end of the Guide suggestions of places are provided.

## HOSTELS

Manaus is gradually offering more HOSTELS options. There are about twenty options in the city.

## REGIONAL COFFEE

Sunday in Manaus is a day for regional coffee. Several establishments, some famous, others less, offer from 6 am until noon, coffee with milk, assorted juices (taperebá, cupuaçu, guava, cherry, orange, etc.), milk with chocolate, traditional corn and wheat cakes, pé-de-moleque, x-caboquinho (French bread with tucumã), tapioca stuffed with curd cheese, chestnut or tucumã, simple tapioca, tapioca flour, corn pudding, couscous and so on. There are so many delights that sometimes a visitor does not even know what to try.

## SHOPPING

Manaus offers excellent shopping opportunities. Prices fit to all pockets. If you are looking for some bargain, downtown stores bring together many popular shops, there you will find the famous Marechal Deodoro street, called by manauaras as "Bate Palma" Shopping (Vendors clap hands "bate palma" in order to call shoppers' attention). In large shopping malls (Manauara, Amazonas and Ponta Negra) you can find major domestic and foreign brands, and famous restaurant chains.

*There are informations about restaurant, services, supermarkets and others at the end of the Guide's part I.*

## STREET MARKETS

It is rare Manauaras (residents of Manaus) go to a street market and do not try a "pastel" with sugar cane juice. Visit the Feira Volante Prefeito I (Tuesday to Saturday at different locations in the city) and taste this delight. Besides this one, almost all neighborhoods of Manaus have their own street markets with food stalls, some larger, as the Coroado street market in the same neighborhood, and also the Manaus Moderna and others promoted by Farmers' Associations Family, held at intervals of fifteen days in some points of Manaus.

## HOSPITALS AND FIRST-AID POSTS

Manaus has a large network of First-Aid posts, Public and Private Hospitals. In addition to these major centers, the Health Public System has Emergency Care Services (SPA) strategically located to attend all city areas. The SPAs are medical care units that provide first-aid care but if a case requires, a patient can be transferred to a specialized center.

## SUPERMARKETS

All supermarket chains offer all kinds of products. However, if you need more specific genres Manaus also features smaller supermarkets with more selective products. Anyway, avoid buying fruits and vegetables in supermarkets, they are always more expensive.

**Health Centers** – For consultation in medical specialties.

**Medical Prompt Service (SPA)** – Provide first aid and emergency care (a situation where there is no risk of losing life or having sequel). It works 24 hours.

**First-aid post** – Health Centers capable of urgent care with risk of life.

## SAFETY TIPS

- Avoid walking in deserted places, especially at certain hours;

# HISTORY

The history of Ufam begins with the creation of the Free Academic School of Manaus, founded on January 17th, 1909. The Free Academic School of Manaus was formed by the faculties of Science and Letters, Juridical Sciences and Social, Medicine, Pharmacy, Dentistry and the course of obstetrician.

On October 22nd, 1913 it started to be named by University of Manaus, remaining this way until 1926. With the decline of the economic cycle of rubber, the city emptied and the population experienced a long period of uncertainty and needs. Thus, in 1926 the University ceased publication leaving a few isolated units. Only the law school remained, moving in 1949 to be maintained by the Federal Government.

On June 12nd, 1962 was created the University of Amazonas Foundation through Federal Law No. 4069-A, authored by Senator Arthur Virgílio Filho. However, its installation happened only on January 17th, 1965, in honor to the Free Academic School of Manaus.

On June 20th, 2002, the Act No. 10.468 gave a new name to the university which was renamed Federal University of Amazonas taking from this moment the acronym "UFAM". The goal of the institution is to provide higher education in undergraduate and graduate level; develop research in all branches of knowledge and promote programs and activities.

## CAMPUS' FOREST

With an area of 6.7 million square meters, the University Campus, located in the city of Manaus, capital of Amazonas, is considered the third largest green fragment in an urban area in the world and the first in Brazil. In the forest of the Campus are found several species of animals (sloths, lowland Paca, monkeys of several species, besides the Sauim Collar (endangered specie that lives exclusively in the region of Manaus). Various types of exotic flowers make up the forest scenario. The purple and yellow trumpet tree (Tabebuia), for example, when blooms, brightens the beholders of nature.
